Subject: fyi - my call with Tod S re Tribal assumption outline of issues
Attachments: Tribal assumption revised 4-24 Clean.docx

Kathy-

I wanted to mention that I spoke briefly with Tod Siegal this morning to let him know we'll be seeking his input and advice on the tribal aspects of this rulemaking. He mentioned that they are working on responsibilities among the tribal attorneys, so he didn't know for sure whether he'll be our contact point, but most likely he will.

I had to briefly explain the rulemaking, as he wasn't familiar with it. I said I'd send him the analytic blueprint, so he can see the scope of the rulemaking (beyond just tribal issues). I also will send him the draft outline that Yvonne, Lauren and I discussed and which I had sent you yesterday (attached is an updated draft)

Kathy-

Here is what Yvonne, Lauren and I discussed. We agreed to start fleshing this out as follows:

Ruth - #1 (Tribal assumption), and under #2 – newly acquired tribal lands

Lauren – under #2 (Tribal implications when a state assumes) – Downstream impacts and tribal treaty rights

Yvonne – under #2 – Tribal consultation and notification requirements

We agreed to check in on status in a couple weeks.

Subject: A few updates to the tribal assumption outline

Yvonne and Lauren-

I made a few updates to the outline based on our discussion Monday. If you'd like to make any further changes/additions, feel free to do so. In particular, please review the bullet on 401 cert. I also added a bullet under #1 (Tribal Assumption of the Program) regarding

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)
